

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## PREFACE.

THE seven parts which this volume comprises have already been issued separately, and now appear in a collective form with a General Index. Since the publication of the various parts the information contained in them has been subjected to careful revision, and in some few cases the tables have been entirely recast. It is possible, however, that some errors may still remain uncorrected; if there be any such which come under attention information concerning their nature and position would be gladly received.

The following pages contain statistics only, and should therefore be read in conjunction with the "Wealth and Progress of New South Wales," an annual publication, based for the most part on the figures contained in this volume, and designed, as its title shows, to illustrate the resources of this Colony.

NOTE.—In many instances the amounts lent upon mortgage by the banks are not stated, but simply the words "valuable consideration" or "cash credit" inserted in the deed. As this occurs frequently when the properties mortgaged are evidently of great value, the absence of the amounts must materially affect the returns, and, as a consequence, the amounts under the head of "reconveyances" are necessarily incomplete. In some cases a similar omission occurs in the stock mortgages, but not to the same extent as in those under the head of Real Property.

NOTE.—The total number of prisoners under sentence received into the various gaols does not agree with the total sentenced as given in table No. 47. This is accounted for by the fact that many prisoners are transferred from one gaol to another, notably in the cases of Berrima and Trial Bay, where most of the prisoners received were transferred from other gaols.

NOTE.—The Public Examinations are similar to the *Middle Class* Examinations of Oxford and Cambridge. They are held annually, in September, and are intended to test the qualifications of boys and girls attending schools or being instructed privately. They are divided into Senior and Junior, and certificates of competency in the several subjects of examination are given to the successful candidates. These examinations are distinct from the examination for the Civil Service.

\* The Matriculated Students are included in those attending lectures in first column.

\* Woolwashing: Works in connection with stations not included. † Biscuits: A few of these establishments also make bread.  
 ‡ Boots and Shoes: Factories with less than six hands not included. †† Clothing: Factories with less than ten hands  
 not included. ‡‡ Agricultural implement manufactories are not included under any of these heads. ¶ Iron and Brass  
 Foundries, and Machinery and Engineering should be taken together, for, though efforts have been made each year to  
 distribute them into their separate divisions, such distribution has been only partially successful. § Jam-making and  
 Fruit-canning combined in 1888 and 1889. §§ Accurate information not available prior to 1886. || Saddlery: Only  
 larger repairing shops included in 1886-89, but all included prior to 1886.

NOTE.—When more than one kind of work is carried on in one establishment, it has frequently been found impossible to  
 distinguish the number of hands, power, and value of plant engaged in the various industries; in such cases the total has been  
 credited to the principal industry.

As is of first importance to accurately classify the hands into their respective employments, it has been customary to subdivide works where more than one important industry is followed. Thus where book-making and tanning are carried on in the same establishment, if both industries are large, they would be treated as separate works, so with engineering and very, brewing and cordial-making, &c.

\* In addition to this area, which represents the land alienated in fee simple under various forms of sale, there were 121,077 acres granted for public and other purposes since the foundation of the Colony. The total amount of land is most likely distributed over several counties. The correct area alienated in each county will not be affected.

\* The Conditional Leases granted under Sec. 54 of Act of 1884 are new leases applied for, and not leases held under the repealed Acts and converted.

† The number and area of Conditional Leases gazetted in this year were in excess of those taken up and forfeited or disallowed by 143 and 89,469 acres respectively.

‡ The figures given for Conditional Leases disallowed, and not yet dealt with, refer to applications made under the Act of 1889 only.

§ There were also 2,661 Conditional Leases, comprising an area of 1,625,520 acres, taken up under the Act of 1889 during 1890; these totals, together with the figures above quoted, as taken up under the 1884 Act, give a total of 15,891 Conditional Leases, with an area of 9,903,949 acres—some of these, of course, may be disallowed.

\* The City of Sydney was first incorporated in 1842, and the municipality continued to the end of 1883; the Corporation was then dissolved, and the Government took over the Municipal functions and appointed three City Commissioners, who administered the affairs till the end of the year 1887, when the old regime was re-established.

† For Municipal purposes, the annual value of unimproved land is taken at 5 per cent. of the capital value shown in this column.

‡ The amounts shown in this column represent the total value of all *improved* property in the Municipalities, including unimproved lands, buildings and cultivated lands.

§ The Borough of North Sydney is formed by the union of the Boroughs of St. Leonards, East St. Leonards, and Victoria.

¶ Rates have not been struck for the year 1880.

‡ Within this Municipality are mines, the capital value of which is estimated at £18,000,000, that under the terms of the Municipal Act are not liable to taxation.

† This Electorate was subdivided by Act of Parliament (51 Vic. No. 24) into three Electoral Districts—Wentworth, Wilcannia, and Sturt, each to return one Member. The Act commenced and took effect from the 1st January 1890, the date of next dissolution of the Legislative Assembly after the passing of the Act.

‡ The Roll for 1887-88 not having been perfected,

was partially and irregularly completed.
